To Whom It May Concern,

I am pleased to recommend Shreyash Ojha, whom I had the opportunity to teach in the Communication & Social Media course within the MPS Fashion Management program at Parsons School of Design.

Throughout the course, Shreyash demonstrated creativity, strategic thinking, and a thoughtful approach to brand communication. He showed an ability to connect creative ideas with broader marketing objectives while considering the importance of brand identity, audience engagement, and storytelling.

One example was his final project for Off-White, *IN PROCESS → HUMAN*, where he developed a creative concept supported by a cross-platform social media strategy. His work reflected an understanding of how to translate brand positioning into engaging content while maintaining a consistent narrative across digital platforms.

Beyond his coursework, Shreyash brings a valuable perspective through his background in Fashion Technology from NIFT Delhi and his continued studies in fashion management. During class discussions, he drew upon his prior knowledge and experiences to share thoughtful insights and connect course concepts to broader industry perspectives. This combination of technology knowledge, creative thinking, and business understanding provides a strong foundation for navigating today's evolving fashion industry.

I believe Shreyash has the potential to contribute meaningfully to a collaborative and creative professional environment. His ability to approach challenges from both a creative and strategic perspective will serve him well as he continues to develop his career.

I am happy to recommend Shreyash for opportunities in brand marketing, communications, social media, and related fields. I look forward to seeing his continued growth and contributions to the industry.

Sincerely,
Christina Lee
