FASHION MERCHANDISING & PLANNING | RETAIL ANALYTICS | APPAREL OPERATIONS & FASHION-TECH

Fashion technologist (**NIFT Delhi**) and fashion manager (**Parsons, MPS, GPA 3.88**) with hands-on work from factory floor to a New York designer sales floor; builds his own tools. Seeking merchandising, planning, category and sourcing roles.

Career Highlights

- **22% less material movement** from a WIP robot piloted at Shahi Exports, later shown at **Bharat Tex 2025**
- **$7,000+ in personal sales on a peak holiday day** across 12+ designer menswear brands at Bloomingdale's, New York
- **Best Graduation Project and two further project awards** at NIFT Delhi; **US$20,000 MANGO Scholarship** at Parsons

Core Competencies

Merchandising & retail: assortment & SKU analysis · sell-through & inventory analysis · allocation & replenishment · OTB / WSSI inputs · product attribution & taxonomy · PDP content · clienteling · consumer research (survey design, ANOVA)
Apparel & sustainability: garment construction · production & IE · WIP flow · costing · fibre strategy · circularity · WFX PLM
Tools & tech: Advanced Excel · Power BI · Google Data Studio · Python · SQL · FastAPI · Arduino (C++) · ESP8266 / ESP32 · Google Apps Script · RFID & IoT · Figma · AI output evaluation

Professional Experience

HANDSHAKE AI | Remote **Sep 2025 – Oct 2026**
Research Fellow – Fashion & Retail Domain

- Built fashion product taxonomies, attribute structures and PDP copy, and evaluated AI model output on garment attributes, size and fit and sustainability claims across **35+ taxonomies**; review consistency raised to **96%**, repeat errors cut **22%**.

BLOOMINGDALE'S, 59TH STREET FLAGSHIP | New York **Sep 2025 – Jan 2026**
Brand Representative – Men's Designer & Sportswear (Seasonal)

- Delivered **$7,000+ in personal sales** on a peak holiday trading day and built repeat clientele across 12+ designer brands (BOSS, Versace, Ralph Lauren, Maison Margiela, AMI, Barbour); logged product mix, pricing and promotion response.

A SPACE, IN BETWEEN | New York **Mar – Jun 2025**
Fashion Management Intern

- Ran competitor research and product storytelling for wholesale and digital merchandising; turned it into requirements for a plus-size platform; prototyped a **24-screen onboarding and body-data journey** (Figma, React/Next.js) with **25% fewer steps**.

ITALIAN TRADE AGENCY – ITALY ON MADISON | New York **May 2025**
Assistant Stylist (Contract)

- Supported runway presentations for **20+ Italian fashion houses**, including Max Mara and Marina Rinaldi.

SHAHI EXPORTS PVT. LTD. | Noida **Jan – Jul 2024**
Industry 4.0 Research Fellow (NIFT Delhi – Shahi Chair) · US$1,100 research grant

- Diagnosed the cutting-to-sewing WIP bottleneck across **16 sewing lines** (64 loadings a day) via process mapping and costing.
- Built and piloted an **autonomous cut-bundle transport robot** (Python, Arduino C++, RFID routing, Wi-Fi control): **22% less material movement, 18% shorter transfer cycles, 92% route reliability**; presented a 12-month ROI case to management.

INZEX TEXTILE PVT. LTD. | Noida **Jun – Jul 2023**
Apparel Intern (Production Operations)

- Built connected **sales and inventory dashboards for three Myntra brands** (Google Data Studio, Power BI) by brand, SKU, city and category, informing allocation, replenishment, markdown and OTB/WSSI decisions.
- Built an IoT needle-runtime tracker for **under INR 400** a machine (Python, NodeMCU ESP8266, Apps Script) that contributed to a **25% output gain** reported by the floor team; a line-layout redesign raised the material-flow index **from 38% to 48%**.

WELSPUN INDIA LTD. | Vapi **Jun 2022**
Textile Intern

- Costed hard waste across five units and traced **79%** to weaving; proposed tuck-in edges for 168 dobby looms, sized at **about 300 kg/day** of potential waste reduction; wrote a 104-page training reference.

Projects

- **Nava Collective, Parsons capstone (featured by Parsons):** trust-first marketplace for independent streetwear labels from an **80-buyer survey**; ANOVA and willingness-to-pay segmentation set target buyers and prices; React/FastAPI prototype.
- **Mango systems intervention (Parsons):** store audits led to an RFID checkout, AI allocation and cross-docking roadmap.
- **Tory Burch technology strategy (Parsons, team of three):** store-manager interview and SWOT led to AI clienteling, blockchain traceability and RFID allocation plans, plus three wearable-tech concepts.
- **DÔEN impact strategy (Parsons, team of four):** fibre-mix audit (organic cotton 25%, cotton 15%, polyester 5%) and a phased swap plan (BCI, GRS polyester, TENCEL) with vendor-compliance and end-of-life strategy.
- **NIR fabric sorting (NIFT research):** ANOVA on 72 cotton, polyester and blend spectra ($F = 61.2$) showed blends can be sorted for recycling, not rejected; textile solid-waste review under Dr. Prabir Jana.
- **NIFT prototypes:** motion-sensitive two-conveyor assembly line with ultrasonic and IR sensing (Arduino Mega, C++; code on GitHub); neural-network sewing-defect detection model (Python, MATLAB).

Education

MPS, Fashion Management, Parsons School of Design, New York | GPA 3.88/4.00 · MANGO Scholarship **2025**
B.F.Tech, Apparel Production, NIFT New Delhi | GPA 8.5/10 · three graduation-project awards **2024**
Certifications: MATLAB Machine & Deep Learning · Business Analysis **|** **Languages:** English, Hindi, French (foundational)
