FASHION MERCHANDISING & PLANNING | RETAIL ANALYTICS | APPAREL OPERATIONS & FASHION-TECH

Fashion technologist (**NIFT Delhi**) and fashion manager (**Parsons, MPS, GPA 3.88**) with hands-on work across the apparel value chain: factory floor, Myntra fulfilment, a New York designer sales floor and fashion product data. Builds his own tools, from Myntra sales dashboards to an IoT needle tracker and a transport robot. Seeking merchandising, planning, category and sourcing roles.

Career Highlights

- **Autonomous cut-bundle transport robot** (Industry 4.0 fellowship) selected by the Ministry of Textiles for **Bharat Tex 2025**
- **$7,000+ in personal sales on a peak holiday day** across 12+ designer menswear brands at Bloomingdale's, New York
- **Best Graduation Project and two further project awards** at NIFT Delhi; **US$20,000 MANGO Scholarship** at Parsons

Core Competencies

Merchandising & retail: assortment & SKU analysis · sell-through & inventory analysis · allocation & replenishment · OTB / WSSI inputs · product attribution & taxonomy · PDP content · clienteling · consumer research (survey design, ANOVA)
Apparel & sourcing: garment construction · apparel production & industrial engineering · line layout & WIP flow · costing
Tools & tech: Advanced Excel · Google Data Studio · Python · SQL · FastAPI · Arduino (C++) · ESP8266 / ESP32 · Google Apps Script · RFID & IoT · Figma · AI output evaluation

Professional Experience

HANDSHAKE AI | Remote **Sep 2025 – Oct 2026**
Research Fellow – Fashion & Retail Domain

- Built fashion product taxonomies, attribute structures and PDP copy, and evaluated AI model output on garment attributes, size and fit and sustainability claims across **35+ taxonomies**; review consistency raised to **96%**, repeat errors cut **22%**.

BLOOMINGDALE'S, 59TH STREET FLAGSHIP | New York **Sep 2025 – Jan 2026**
Brand Representative – Men's Designer & Sportswear (Seasonal)

- Delivered **$7,000+ in personal sales** on a peak holiday trading day and built repeat clientele across 12+ designer brands (BOSS, Versace, Ralph Lauren, Maison Margiela, AMI, Barbour); logged product mix, pricing and promotion response.

A SPACE, IN BETWEEN | New York **Mar – Jun 2025**
Fashion Management Intern

- Ran competitor research and product storytelling for wholesale and digital merchandising; turned it into requirements for a plus-size platform; prototyped a **24-screen onboarding and body-data journey** (Figma, React/Next.js) with **25% fewer steps**.

ITALIAN TRADE AGENCY – ITALY ON MADISON | New York **May 2025**
Assistant Stylist (Contract)

- Supported runway presentations for **20+ Italian fashion houses**, including Max Mara and Marina Rinaldi.

SHAHI EXPORTS PVT. LTD. | Noida **Jan – Jul 2024**
Industry 4.0 Research Fellow (NIFT Delhi – Shahi Chair) · US$1,100 research grant

- Mapped cut-bundle transport to 16 sewing lines (**64 loadings a day**, one shared lift) via process mapping and costing.
- Built and tested a line-following **AGV prototype** (Arduino Mega, C++ in PlatformIO, RFID station routing, Wi-Fi control interface) and wrote factory implementation and troubleshooting guidelines.

INZEX TEXTILE PVT. LTD. | Noida **Jun – Jul 2023**
Apparel Intern (Production Operations)

- Built connected **sales and inventory dashboards for three Myntra brands** (Google Data Studio) by brand, SKU, city and category, informing allocation, replenishment, markdown and OTB/WSSI decisions.
- Built an IoT needle-runtime tracker for **under INR 400** a machine (NodeMCU ESP8266, ultrasonic sensor, Arduino C++, Google Apps Script) that logs each sewing cycle to Google Sheets in real time; redesigned a sewing-line layout, raising the material-flow index **from 38% to 48%** on paper.

WELSPUN INDIA LTD. | Vapi **Jun 2022**
Textile Intern

- Costed hard waste across five units and traced **79%** to weaving; proposed tuck-in edges for 168 dobby looms, sized at **about 300 kg/day** of potential waste reduction; wrote a 104-page process reference used in training.

Projects

- **Nava Collective, Parsons capstone (featured by Parsons):** trust-first marketplace for independent streetwear labels from an **80-buyer survey**; ANOVA and willingness-to-pay segmentation set target buyers and prices.
- **Parsons strategy work:** sustainability and efficiency interventions for **Mango**; impact strategy for **Doen**.
- **NIFT prototypes:** motion-sensitive two-conveyor assembly line with ultrasonic and IR sensing (Arduino Mega, C++; code on GitHub); neural-network sewing-defect detection model (MATLAB).

Education

MPS, Fashion Management, Parsons School of Design, New York | GPA 3.88/4.00 · MANGO Scholarship **2025**
B.F.Tech, Apparel Production, NIFT New Delhi | GPA 8.5/10 · three graduation-project awards **2024**
Certifications: MATLAB Machine & Deep Learning · Business Analysis **| Languages:** English, Hindi, French (foundational)
